

Coding & Solution

Date	29 June 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	5 Marks

Coding & Solution

This section evaluates the quality and completeness of your implemented code and the overall solution. Your submission should demonstrate working functionality, clean code practices, and alignment with your defined requirements.

Instructions:

1. Ensure your code is well-structured, commented, and follows best practices for your chosen technology stack.
2. The solution should address the core problem statement and implement the key functional requirements.
3. Include all source files, configuration files, and setup instructions needed to run the application.
4. Attach or link to your code repository (e.g., GitHub) in the table below.

Solution Summary

Field	Details
Repository Link / URL	https://github.com/Nikitha694/A-Comprehensive-Measure-of-Well-Being/tree/main/5. Project Development Phase/HDIPredictorproject
Programming Language(s)	Python, HTML, CSS, JavaScript
Framework(s) Used	Flask, Scikit-learn, Pandas, NumPy, Joblib
Key Features Implemented	• Predicts Human Development Index (HDI) using a Linear Regression model. • User-friendly web interface for entering socio-economic indicators.

	• Displays predicted HDI score and development category instantly. • Performs input validation before prediction. • Uses a trained .pkl model for prediction.
Pending / Incomplete Features	• User authentication. • Prediction history storage. • Graphical analysis and report generation.
Setup / Run Instructions	1. Clone the GitHub repository. 2. Install dependencies using pip install -r requirements.txt. 3. Run the Flask application using python app.py. 4. Open the application in a web browser using: http://127.0.0.1:5000

Code Quality Checklist

S.No	Criteria	Status (Yes / No)
1	Code is modular and organized into functions / classes	Yes
2	Meaningful variable and function names are used	Yes
3	Code includes comments / documentation where necessary	Yes
4	Error handling is implemented for critical operations	Yes
5	The application runs without critical errors	Yes
6	Code is committed to a version control repository	Yes
