

Demonstration of Proposed Features

Date	01 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Input Form	Allows users to enter Life Expectancy, Mean Schooling, Expected Schooling, and GNI Per Capita.	Implemented	Yes	User-friendly interface with responsive design.
2	Input Validation	Validates user inputs before sending data for prediction.	Implemented	Yes	Prevents invalid or empty values.
3	Data Preprocessing	Scales user input using the saved scaler before prediction.	Implemented	Yes	Uses scaler.pkl and label_encoder.pkl.
4	HDI Prediction Model	Predicts the Human Development Index using the trained ML model.	Implemented	Yes	Generates accurate HDI score instantly.
5	Prediction Result Page	Displays the predicted HDI score, development category, and input summary.	Implemented	Yes	Shows prediction with clear visualization.
6	Flask Web Application	Connects the frontend with the machine learning model.	Implemented	Yes	Successfully handles prediction requests.

Feature Implementation Summary:

Metric	Count / Value
Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
